A single click transfers all the address details intelligently into your Address Book!

How AddressGrabber Business Works?

AddressGrabber Business is a handy software that captures address information (From text documents, web pages, e-mail, spreadsheets, databases) and transfers them into your Address Book.

All you need to do is:

- ◆ Highlight the address information.
- ◆ Click your destination application on toolbar.

System Requirements

- ◆ Pentium PC or higher, 128 MB RAM or as required by the OS
- ◆ 75 MB disk space to install the program and 30 MB Space to run after installation
- ◆ Operating System:
 - Microsoft Windows Vista (32-bit) Enterprise, Business, Ultimate and Home Premium Editions.
 - Microsoft Windows XP

Installing the Software

The following section describes how to install your new AddressGrabber Business:

- ◆ If you have the CD, double-click the installation icon in the AddressGrabber Business folder. Else, visit <http://www.goldmineaddons.com/products/reg-pages/egb-agb-reg.asp> to download the installation file.
- ◆ The Installation wizard guides you through rest of the process.
- ◆ During installation, AddressGrabber automatically detects contact managers, address books, and other possible destination applications that are installed in your PC.

When you finish the wizard, you have successfully installed the software.

Registering the Software

After installation, **eGrabber Product Registration** window appears:

- ◆ **Purchased the software:** If you have purchased eGrabber software, type or paste the Purchase Key under "Please type or paste your License Key here" and then click **Register Now**.
- ◆ **Evaluate the Software:** If you are evaluating the software, paste the Trial key under "Please type or paste your License Key here" and then click **Register Now**.

 **Note:** The evaluation version is a full-featured product but is limited to be used for 10 days or for 50 successful transfers whichever is earlier.

- ◆ **Evaluate for 3 days:** Click the **Register Later** button to evaluate the product for 3 days.

AddressGrabber - Toolbar & Tray Icon

AddressGrabber is displayed as a floating toolbar. The toolbar can be dragged and placed anywhere on the Desktop.

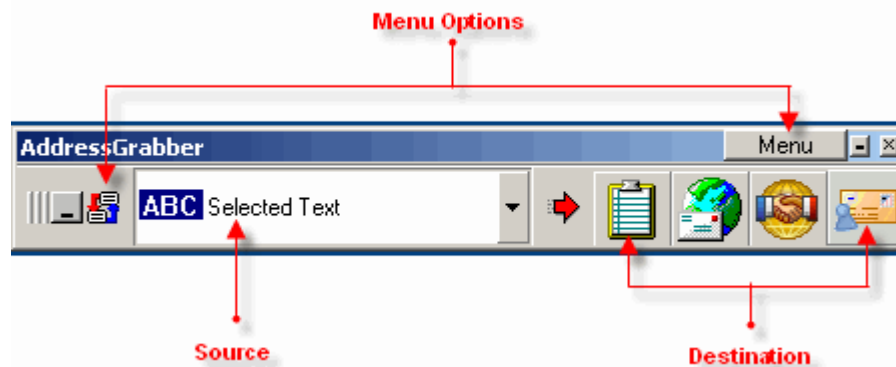

Figure 2: AddressGrabber Business Toolbar

The toolbar displays the Source and destination applications. You can select your source and click on the appropriate destination application to transfer the contact information.

You can also customize AddressGrabber by using the Menu Options.

You can minimize AddressGrabber to appear as System Tray Icon. Click the Tray Icon to view the Toolbar.

Figure 3: AddressGrabber Business Tray Icon

Transferring Addresses from selected text

We provide Sample Addresses to quickly work with the product. Keep your destination application open before you transfer addresses.

- Click **Menu** on toolbar | select **Sample** and click **Addresses1**. The sample Address list is displayed.
- Highlight a single address from the list.

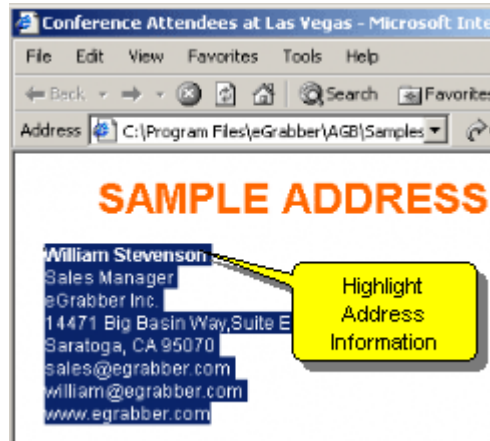

Figure 4: Highlight Address Information

- Click your destination icon on toolbar. Example: Outlook.

Figure 5: Click on Outlook Icon

- **AddressGrabber Parse Result** window appears displaying the extracted address information for verification.

Figure 6: Address Confirmation Window

You can edit/verify the extracted address and then click the **Transfer** button to transfer the address to your Address Book.

A new contact is created in your Outlook Address Book.

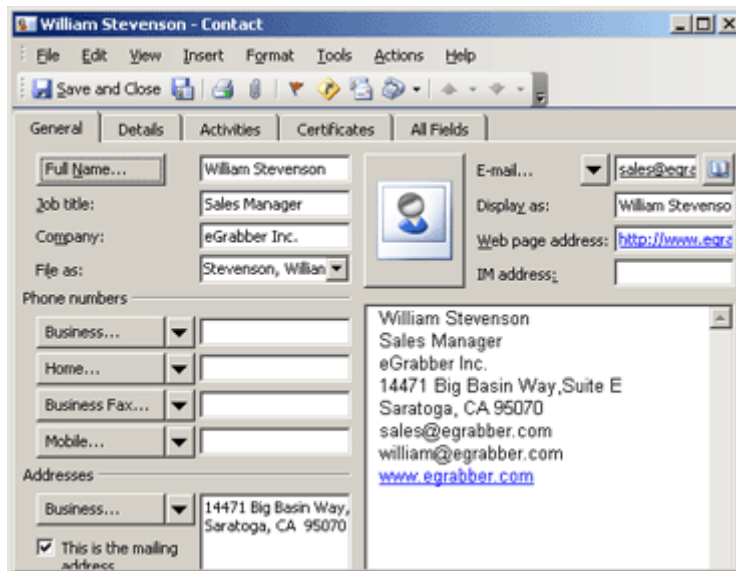

Figure 7: Contact Created in Outlook

Transferring Addresses from Outlook

Keep your destination application [QuickBooks] open before transfer.

Select the contact in your Outlook.

Launch the AddressGrabber toolbar.

- ◆ Source is automatically selected as Outlook in the left drop down menu of the toolbar.
- ◆ Click the QuickBooks icon on the toolbar.

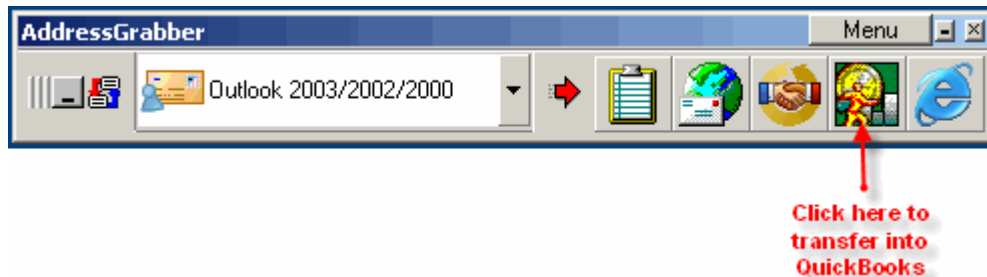

Figure 8: Click on QuickBooks Icon

Click **Menu > Add/Hide Applications**. Add your destination application icon if it is not displayed on the AddressGrabber toolbar.

AddressGrabber Parse Result window appears displaying the extracted address information for verification.

You can edit/verify the extracted address and then click the **Transfer** button to transfer the address to your QuickBooks.

A new customer record is created in QuickBooks.

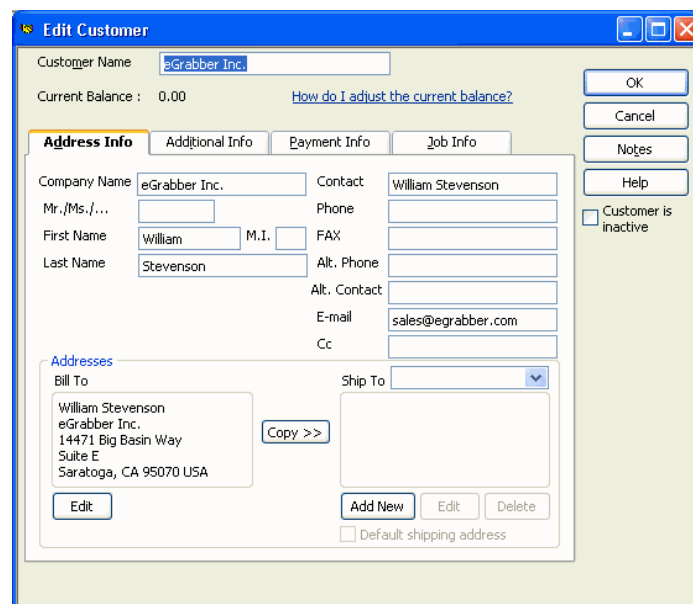

The image shows the 'Edit Customer' window in QuickBooks. The 'Customer Name' is 'eGrabber Inc.'. The 'Current Balance' is 0.00. The 'Address Info' tab is selected, showing the following details: Company Name: eGrabber Inc., Contact: William Stevenson, First Name: William, Last Name: Stevenson, E-mail: sales@eGrabber.com. The 'Addresses' section shows a 'Bill To' address: William Stevenson, eGrabber Inc., 14471 Big Basin Way, Suite E, Saratoga, CA 95070 USA. There are buttons for 'Edit', 'Add New', 'Edit', and 'Delete' for the address. A 'Ship To' dropdown menu is also visible.

Figure 9: Record created in QuickBooks

Transferring Addresses to Online Web Forms

You can transfer addresses from any source to your Online Web Forms. Open your online web form in your default browser before transfer.

Highlight the address you want to transfer to your Online Web Form. Refer Figure 4.

Launch the AddressGrabber toolbar.

- ◆ Source is automatically selected as “ABC Selected Text” in the left drop down menu of the toolbar.

- ◆ Click the  icon on the toolbar.

AddressGrabber Parse Result window appears showing all the fields on the Online Web Form mapped to the AddressGrabber fields.
